Text post

Investing in our Children's Future

Elementary and Secondary Education Department (E&SE) of Khyber Pakhtunkhwa Government has planned to organize a week long summer camp across all 25 districts of the province. Khwarizmi Science Society will be a part of this camp, which will be held simultaneously in 60 government schools across the province from 7th August, 2017 to 14th August 2017.

The government of KPK and more than ten non-government agencies will work in synergy so that every child across the province gets the opportunity to learn something out of his/her textbook, to learn something by experimentation.

Today, we are honored to host amazing folks Syeda Rida Asad and Mr Hamza bilal from their kind organizations #WonderTree and #AlifAilaan at RISE School for Inclusive Education, Abbottabad!

Their vision is to advocate for and facilitate child's need based education!

Miss Syeda Rida Asad oriented children and teachers about games specifically designed to assess and improve children's (with disabilities) skills and needs!

WonderTree has organized summer science camp2017 along with the cooperation of Alif Ailaan in KPK.

Our school's children with disabilities really enjoyed the activity and loved those gadgets!

at the end, Safi Ullah presented RISE SPECIAL SOUVENIR( His Hand Made Paintings) to our esteemed guests!

We are looking forward to working with you in Future!

The District Edication Officer male Malakand visited GHS Malakand in connection with observing and inspection of summer camp today. In his address to the students he deliberated upon the purpose of the summer camp as a tool of motivation for education and awareness about oneself, the society, the nature and the place of an individual in his society and the universe. Education helps one to discover himself. He also reminded to the teacher about their national duty and role in the development of the personality of their students.

Video post

As far as Pakistan's story goes, it all started in Peshawar, its oldest city. How befitting to write the new chapter in our nation's technology-led story by starting from this city again.

And why not! Peshawar was once known as the Amsterdam of Asia. Windmills are common in Netherlands, and its capital is Amsterdam. Today we are helping the kids in Peshawar learn about the engineering that goes into making windmills, so they can learn to generate clean energy too.

So come and join us as Qissa khwani bazaar has a 'new story' to tell, or "کیون مریاں" in Pashto and "nieuw verhaal" as the Dutch would say.

We are honored to have had the opportunity to serve the nation by conducting voluntary Japanese Mental Maths coaching activity in the government-run schools in the province of KPK. We greatly appreciate this initiative by the KPK government and believe that it will go a long way in uplifting the standard of education.

Summer Camp activities going on at Govt. Girls Higher Secondary School Lady Griffith Peshawar. The main focus was on "how to utilize simple common place domestic objects and convert them into attractive and expensive items". These can be used for earning as well as decoration and designing. Furthermore, students were made aware about how to solve their daily problems by themselves and to activate their faculty of inquiry about every thing. It was really an awesome and unique experience for Govt sector students. Students from other vicinity schools also participated in it.

Did you know which Pakistani city has the largest telephone factory once built in Asia?

Do you know that we have the world's largest rock-filled dam in the world?

Don't you want to say: "Pakistan Zindabad!"

Good Initiative by KP Govt these activities should be on regular basis. We need modern Technology. We are fed up of old methodology of Teaching.
Students love this and they really enjoyed it. #SummerCampsKP
