Text post

Investing in our Children's Future

Elementary and Secondary Education Department (E&SE) of Khyber Pakhtunkhwa Government has planned to organize a week long summer camp across all 25 districts of the province. Khwarizmi Science Society will be a part of this camp, which will be held simultaneously in 60 government schools across the province from 7th August, 2017 to 14th August 2017.

The government of KPK and more than ten non-government agencies will work in synergy so that every child across the province gets the opportunity to learn something out of his/her textbook, to learn something by experimentation.

Today, we are honored to host amazing folks Syeda Rida Asad and Mr Hamza bilal from their kind organizations #WonderTree and #AlifAilaan at RISE School for Inclusive Education, Abbottabad !

Their vision is to advocate for and facilitate child's need based education!

Miss Syeda Rida Asad oriented children and teachers about games specifically designed to assess and improve children's (with disabilities) skills and needs!

WonderTree has organized summer science camp2017 along with the cooperation of Alif Ailaan in KPK.

Our school's children with disabilities really enjoyed the activity and loved those gadgets!

at the end, Safi Ullah presented RISE SPECIAL SOUVENIR(His Hand Made Paintings) to our esteemed guests!

We are looking forward to working with you in Future!

The District Education Officer male Malakand visited GHS Malakand in connection with observing and inspection of summer camp today. In his address to the students he deliberated upon the purpose of the summer camp as a tool of motivation for education and awareness about oneself, the society, the nature and the place of an individual in his society and the universe. Education helps one to discover his self. He also reminded to the teacher about their national duty and role in the development of the personality of their students.

Robo Kids conducted a session in GGHS No.1, Abbottabad. Windmill model was presented by Robo Kids and the students of GGHS No.1, practiced that model and enjoyed a lot. They were of the view that this kind of events should be organized regularly. They were thankful to Robo Kids and KP govt.

Robokids Video post

As far as Pakistan's story goes, it all started in Peshawar, its oldest city. How befitting to write the new chapter in our nation's technology-led story by starting from this city again.

And why not! Peshawar was once known as the Amsterdam of Asia. Windmills are common in Netherlands, and its capital is Amsterdam. Today we are helping the kids in Peshawar learn about the engineering that goes into making windmills, so they can learn to generate clean energy too.

So come and join us as Qissa khwani bazaar has a 'new story' to tell, or "یون هس نیک" in Pashto and "nieuw verhaal" as the Dutch would say.

Robo Kids reaches Mansehra. Today, they had a session with the students of GHS No.1, #Mansehra under KP's #SummerCamp2017 . Children seemed quite enthusiastic to learn new technology and they

are committed to grow up and become scientists and invent new machines. This kind of sessions should be organized on regular basis to promote the STEM education.

It's been a pleasure experiencing the vision and enthusiasm of the KPK Minister of Education Mr Atif Khan, who has introduced some world-class educational practices in the KPK. We found his vision truly inspiring.

We are honored to have had the opportunity to serve the nation by conducting voluntary Japanese Mental Maths coaching activity in the government-run schools in the province of KPK. We greatly appreciate this initiative by the KPK government and believe that it will go a long way in uplifting the standard of education.

Summer Camp activities going on at Govt. Girls Higher Secondary School Lady Griffith Peshawar. The main focus was on "how to utilize simple common place domestic objects and convert them into attractive and expensive items". These can be used for earning as well as decoration and designing. Furthermore, students were made aware about how to solve their daily problems by themselves and to activate their faculty of inquiry about every thing. It was really an awesome and unique experience for Govt sector students. Students from other vicinity schools also participated in it.
