FOREWORD

Education Statistics are crucial in policy formulation, planning, implementation and monitoring of the education system. Realizing the importance of education statistics, the Education Management Information System (EMIS) Cell of Elementary & Secondary Education (E&SE) Department, Government of Khyber Pakhtunkhwa has been preparing Statistical Reports of Government Schools on annual basis. The Annual Statistical Report 2013-14 of Government Schools comprises educational data pertaining to all level of Government Schools ranging from Primary to Higher Secondary Level. This publication is the 23rd Annual Statistical Report of Government Schools in the province. EMIS cell has also published 04 Statistical Reports of Private Schools and one Statistical Report of Deeni Madaris for the year and have been integrated into the EMIS database.

The ASC 2013-14 was started in October 2013. Two separate Questionnaires (i.e. One for Government Primary Schools in Urdu and Second for Government Secondary Schools in English) were designed, covering all the core indicators and the data demands of the stake holders. Through field formation i-e District EMIS offices questionnaire were distributed and recollected for onward submission to Provincial EMIS database.

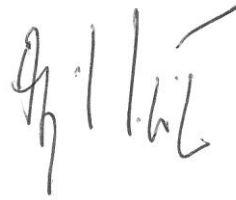

Unlike previous years, this year the data entry and reporting of ASC 2013-14 was held through a web based application ESDSS (Educational Spatial Decision Support System), newly developed with the support of ESDP-GIZ. The ESDSS besides having both online and offline data entry utilities have robust validation checks, online approval of data at various levels and reporting from the districts. All the ASC time series data is now available through ESDSS for general public on the E&SE Department website (www.kpese.gov.pk). A lot of problems (i.e. capacity building at various levels, real time testing bugs, internet connectivity and speed, change over etc.) were faced amid first time launch of ESDSS. This has delayed the completion and publishing of the ASC 2013-14 Report. But it is hoped that in the years to come, ASC Reports will be published well before the stipulated time.

The report is divided into four parts. Part-I of the report consists of Executive Summary, Part-II mainly is comprised of the Provincial Statistics ranging from number of schools, enrollment, teachers and analysis, Part-III covers District-wise Statistics and Part-IV consists of the Questionnaires used during the census.

This report consists of all commonly used and probable data analysis and reports according to the needs of data users. Analysis of data has been made so as to make it user-friendly and helpful for the planner, researchers, students and academicians. In addition, customized reports can be generated with reference to various aspects of educational institutions.

This report is the outcome of hard work of Provincial EMIS team members and all the officers and officials working in the District Education Offices including Assistant Programmers, Computer Operators of District EMIS cells.

Views and comments of all the stakeholders, including educationists and researchers will provide the department guiding principles for the ASC reports to be produced in the years to come.
